Go beyond the classroom,
Hassle-FREE iVClass
one-stop Virtual Learning

Engage and succeed. One-Stop Virtual Training

ISOtrain's link to web conferencing software, iVClass, allows your employees to participate in scheduled instructor-led training sessions from any place with an Internet connection, enabling them to actively keep your company in compliance with regulatory requirements.

Connect, Attend & Complete Virtual Training Make it possible for your employees to easily and conveniently attend –and complete– their required training sessions remotely. Whether they are simply out of the office or in another country, ISOtrain's automated e-mail reminders –sent directly to workstations and mobile devices– allow everyone to easily connect and attend training with just a click of a link! Also, virtual classrooms have no physical limitations, complications nor capacity limit, thus reducing your company's operational expenses, maximizing room availability and usage of tangible resources.

Rich Online Training Experience Take your training to a new instructional quality level. With high-impact, visual material presentation, improved instructor-student collaboration and communication, help attendees to learn efficiently and effectively. iVClass enriches instructional quality through screen and file sharing, polling, multiple presenters, chatting, Q&A filtering, white boarding in Virtual Meeting Rooms and allowing your instructors and employees to work resourcefully; all of which result in increased employee performance.

Full Integration with ISOtrain From Course Catalog to entry of training results, iVClass unites ISOtrain with 3rd party virtual learning applications, automatically maintaining database synchronization. As with all other instructor-led and self-trained sessions, your virtual sessions are readily available through your organization's Course Catalog while, under ISOtrain's umbrella, you remain 21 CFR Part 11 and GMP 211.25 / 820.25 compliant with no extra effort on your part!

Integrated Web Conferencing Promote scheduled training attendance with easy access to ISOtrain-integrated web conferencing and automated notifications and reminders. Open the way for real-time collaboration between instructors and employees, and boost your training sessions' quality to a new level with dynamic and interactive virtual tools.

Engaging Experience Produce engaging interactive learning experiences through easy content creation and deployment. Benefit instructors and attendees with hi-quality graphical instructional materials, file sharing, polling and Q&A filtering, turning a regular session into a dynamic, productive and unforgettable one.

Powerful Virtual Features Add to the power of ISOtrain by defining an instructor-led training session as virtual. Benefit from virtual tools to increase the effectiveness of your trainings, including chatting, white boarding, hand-raising, screen sharing and multiple presenters. iVClass will result in improved knowledge transfer and communication for your entire company.

Cost Effectiveness Reduce travel expenses with Virtual Meeting Rooms accessible from anywhere around the globe. Cut down your cost of absenteeism with automated and integrated e-mail reminders and notifications, making attendance as easy as a click. Lessen instructors and administrators' operational costs with integrated training results entry. All around cost effectiveness through iVClass!
